To whom it may concern:

I would highly recommend Kristiano Klimi for employment with your company. As a Project Manager / Design Architect on several projects with Rebanks Pepper Littlewood Architects, Kristiano worked directly under my supervision for the Halton Regional Police Headquarters Project. During this time Kristiano proved himself to be an asset to the team due to his strong technical capabilities and his attention to detail.

Kristiano, worked closely with myself and the team to lead many aspects of the construction documents package for the Halton Regional Police Headquarters Project. Through careful research, and complex detailing the firing range portion of the building which were produced by Kristiano, he showed a strong understanding of all aspects of a buildings construction. Other areas of the building production executed by Kristiano were: Ceiling details, reflected ceiling plans, and site details. Kristiano was also in charge of millwork package for the Halton Police Service facility.

On other projects within the office, Kristiano's strong sense of detailing was evident in his reviewing of shop drawings on other projects.

Kristiano's positive attitude was always felt throughout the office. I have no reservations in recommending him to your organization.

Yours faithfully,

Matthew Skura
